

Teenager Alcohol and Other Drugs Seminar For Parents

FebFast has engaged the services of YSAS' (the Youth Substance Abuse Service) Education and Research Unit to deliver Teenager Alcohol and Other Drugs Seminars to parents throughout February.

YSAS has been providing specialist alcohol and other drugs services to young people and their families and delivering workforce development training since 1997.

The Education and Research Unit is a Registered Training Organisation (RTO) with the Australian National training Authority (ANTA) and delivers nationally accredited training programs. It is a recognised leader in workforce development training to organisations across the government, community and corporate sectors.

The focus of the Teenager Alcohol and Other Drugs Seminar

This specialised seminar targeting company employees covers a range of topics to increase families' understanding of alcohol and other drug use and strategies for engaging and responding effectively.

- types of alcohol and other drugs, their effects and patterns of use;
- impact of alcohol and other drug use on young people and families;
- engaging and responding to teenagers involved in alcohol and other drug use.

Participants attending the seminar are also provided with a range of alcohol and other drug resources.

To discuss having an expert trainer visit your workplace or school to talk with parents, contact FebFast at info@febfast.com.au

Please note that a service fee is attached to these seminars.
